ABOUT

Australian Fire Control Pty Ltd are a small to medium sized business with a big business mentality. We are a specialist contractor in the area of FIRE & SMOKE RATED BUILDING PRODUCTS & SERVICES.

Our experience dates back to 1979 and ensures the necessary expertise to meet the demands of this highperformance industry.

This expertise is being applied throughout Australia and SE Asia, where AFC are developing a reputation as the 'go to' company amongst Builders, Engineers, Designers and Architects for major projects within the general construction, mining and oil & gas industries.

Our products are either supplied by world class manufacturers or manufactured under licence by AFC. All products are supported by full scale testing and assessments conducted globally and valid locally.

In-house technical capacity enables AFC to work with other industry professionals in providing solutions to the many complex scenarios that arise from application of the prescriptive BCA/NCC.

You could say we go where others fear to tread and our clients are very appreciative of this work ethic.

Supporting this technical capacity is an infrastructure that has been assembled over many years. Highly qualified tradesmen with experienced supervisors & estimators mesh seamlessly with thoughtful management and top level administrative staff to provide a strong and vibrant business.

In keeping with a philosophy of continual improvement AFC are currently undergoing QA processes in accordance with ISO 9001.
